

Jefferson Padua

Aspiring Information Technology Professional

Building Technology. Leading Innovation.

Jeffersonbalais11@gmail.com | +63 993 070 9784 | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated and goal-oriented Information Technology student with a strong passion for software development, web technologies, and innovative digital solutions. Experienced in leading student organizations, organizing technology-driven events, and collaborating with diverse teams. Dedicated to continuous learning, problem-solving, and developing applications that create meaningful impact. Seeking opportunities to apply technical expertise, leadership, and creativity in real-world projects and professional environments.

EDUCATION

Bachelor of Science in Information Technology (BSIT) Technological University of the Philippines – Manila	2024 - 2028
Science, Technology, Engineering & Mathematics (STEM) Arellano University – Jose Rizal Campus (Malabon City)	2022 - 2024
Junior High School Tañong Integrated School	2018 - 2022
Elementary School Tañong Integrated School	2012 - 2018

TECHNICAL SKILLS

Programming Languages: Java • JavaScript • TypeScript • Python • C/C++
Web Development: HTML5 • CSS3 • Tailwind CSS • React • Next.js • Node.js
Database: MySQL • SQLite • Firebase Firestore • Supabase • PostgreSQL • Cloudinary
Tools & Platforms: Git & GitHub • Visual Studio Code • Firebase • Figma • Arduino • Microsoft Office
Areas of Interest: Full-Stack Web Development • Software Engineering • Artificial Intelligence • Cloud Computing • Database Systems • Cybersecurity

LEADERSHIP EXPERIENCE

Chief Finance Officer | [Google Developer Groups on Campus](#) – TUP Manila

- Assisted in planning and managing organization finances.
- Coordinated budgeting for technology events and community initiatives.
- Collaborated with officers and partners to ensure successful event execution.

Councilor for Internal Control | College of Science – College Student Council TUP Manila

- Assisted in maintaining transparency, accountability, and compliance within council operations and activities.
- Monitored the implementation of council policies, procedures, and organizational standards to ensure effective governance.
- Collaborated with council officers in planning, coordinating, and evaluating student programs and initiatives while promoting integrity and responsible leadership.

Student Leader

- Participated in organizing academic and technology-related activities.
- Worked with multidisciplinary teams to deliver projects and events.
- Demonstrated leadership, communication, and organizational skills.
- Class President and Vice President of Senior High School.
- Vice Chairperson of Grade 12 – Cluster 6 Committee

PROJECTS

Portfolio Website

- Developed a responsive personal portfolio showcasing projects, achievements, certifications, leadership experience, and technical skills.
- Designed with modern and professional user experience.

Inventory and POS System

- Designed and developed an inventory and point-of-sale application featuring inventory management, sales tracking, reporting, and receipt generation.

Blood Donation Monitoring System

- Contributed to the development of a web-based platform for blood inventory management, donor registration, and request monitoring.

Customer Record Management System

- Designed a normalized relational database and implemented CRUD operations with authentication and reporting features.

Finance Task Tracker *(Web Application)*

- A website application that monitors and tracks the responsibilities and tasks of each of the core leads in GDGoC.

Laundromat Ecommerce System *(School Project)*

- A project for a laundry shop featuring manual selling and inventory of products and sales, with an integrated thermal printer, currently in use at a shop in Parañaque City.

Lakbay PH *(School Project)*

- A seat occupancy monitoring system that uses computer vision to monitor buses in the EDSA Carousel of Metro Manila.

National Office Supplies Information Management System *(School Project)*

- A project built to improve system security and monitoring of employees — covering performance tracking, inventory/parts, a reporting system using PostgreSQL, order handling, and invoice generation.

Invoice Generator *(Personal Project)*

- A system that generates invoice reports using an invoice entry form.

Quanti: Sealed Bid Contract Distribution System *(School Project)*

- A game project for Quantitative Simulation and Analysis, using various algorithms with a proper distribution model and a twist on reverse bidding.

Computer Vision – Fitness Monitoring System *(Other)*

- A group project that monitors a user's training and exercise form (sit-ups, squats, push-ups, etc.), tracking proper posture to count reps and validate successful exercises.

HemoLink *(Personal Project)*

- A website system that monitors the blood supply within a given area via a dashboard showing inventory of registered LGU health units' blood supplies, with features for donating and requesting blood.

Circle of Memories *(Personal Project)*

- A simple website for uploading and saving photos to preserve memories shared among friends.

Attendance Tracker *(Web Application)*

- An attendance tracker using computer vision — scanning via QR code or facial recognition of registered students to mark attendance (Late, Absent, Present) per subject. Includes a dashboard, QR scan console, face/manual entry, subject registration, student attendance reports, and a notification system for class attendance times.

Flutter Project – Ecommerce Mobile Application System *(Mobile App)*

- A mobile application system built with Dart and a MySQL workbench, integrating a thermal printer.

ACHIEVEMENTS

- Valedictorian – Senior High School Batch 2024
- Graduated with Highest Honors (GWA: 99.00)
- Best in Scientific Investigatory Project Research
- Best in Culminating Activity
- First Place – Local Research Colloquium (2024)
- Outstanding Executive – Google Developer Groups on Campus TUP Manila
- 1st Year – Dean’s Lister
- 2nd Year (1st Semester) – Dean’s Lister
- 2nd Year (2nd Semester) – President’s Lister
- Gold Medallion Scholarship Awardee – Arellano University Jose Rizal Campus
- Florentino Cayco Memorial Scholarship – Arellano University Jose Rizal Campus

ORGANIZATIONS

- Google Developer Groups on Campus – TUP Manila
- College of Science – College Student Council TUP Manila
- TUP Manila AWS Student Builder Group
- TUP Manila COMPASS
- TUP Manila The Algorithm Guild
- Active participant in academic, technology, and community initiatives

SOFT SKILLS

Leadership • Communication • Team Collaboration • Critical Thinking • Problem Solving • Time Management • Adaptability • Project Management

CAREER OBJECTIVE

To build innovative technology solutions that solve real-world problems while continuously growing as a software developer and technology leader. I aspire to contribute to organizations that value innovation, collaboration, and lifelong learning while making a positive impact through technology.
